

Product Compliance Certificate

Certificate Number: 3175174-OK-12-265-03A

Certification is based on the type testing according to below named standards and production is monitored by an Initial and Annual Follow up Inspection Service.

Notice to Authorities:

This certificate indicates that a third party Accredited Body has tested and verified that the products listed comply with the relevant harmonized standards to directives listed on this certificate. The manufacturer may indicate compliance to said directive by signing a Declaration of Conformity to products identical to the tested samples.

In addition, annual factory inspection has been performed for further verification of compliance. Intertek requests all whom may be concerned to allow products entry into the European market without delay or prejudice. The applicant may rightfully use this certificate to mark their products with the ETL^{EU} mark identified above.

Intertek is a leading international provider of quality and safety services to a wide range of global and local industries. Intertek's laboratories are included in IECEE CB scheme as operational CBTL and hold several local accreditations.

Product Name

Intrusion and Hold-up system

Trademark

Spectra

Model Number(s)

SP4000, SP5500, SP6000, RTX3, TM50

Description

The SP4000, SP5500 and SP6000 use the same programming protocol and components. The construction of the SP5500 is the same as the SP6000 with some of the components removed. This does not affect the functionality of the panel as required by these standards. The construction of the SP4000 is different then the SP6000. All of the I&HAS are mounted in a 224mm x 254mm or 278mm x 278mm metal enclosure with a 12Vdc backup battery. The SP4000/5500/6000 can also be configured with a Dialer for alarm transmission purposes. See Intertek reports 100803903MIN-011 and 100803903MIN-012 for the Dialer specifications and test data. The SP4000/5500/6000 may be configured with an RTX3 Expansion module. This is a 2-way, 32 zone wireless expansion module which can support wireless hardware such as motion detectors, remote controls, etc. The RTX3 is powered from, and communicates to the SP4000/5500/6000 through a wired connection. The TM50 Touch interface Module may also be used with the EVO192. For evaluation to EN 50131-1, see report 100803903MIN-001.
SECURITY GRADE 2: SP4000, SP5500, SP6000, RTX3
SECURITY GRADE 3: TM50
Environmental Class II

Test Report No

100546807MIN-001EU

Standards/Directives

EN 50131-1: 2006/A1:2009

Lab accreditation: Tested in accordance with A2LA accreditation to IEC/ISO 17025:2005, Certificate number 1427.01

Issued Date

March 5, 2013

Validity

March 5, 2018

Maximum 5 years or the validity limitation of the standards/directives used, whichever is sooner.

If the product is to be marketed in different European countries, it must be provided with a certified plug appropriate for each country. Safety related parts of the user instructions shall be written in a language acceptable to the country where the product is to be used.

This certificate, which includes production control, is considered to constitute sufficient support for an EC Declaration of Conformity and CE marking of the product according to the Low Voltage Directive 2006/95/EC.
Other EU directives may apply.

Ellenfmialek

Name of Certifier

This certificate is for the exclusive use of Intertek's Client and is provided pursuant to the Certification agreement between Intertek and its Client. Intertek's responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this Certificate. Only the client is authorized to permit copying or distribution of this Certificate and then only in its entirety. Use of Intertek's Certification mark is restricted to the conditions laid out in the agreement and in this Certificate. Any further use of the Intertek name for the sale or advertisement of the tested material, product or service must first be approved in writing by Intertek. Initial Factory Assessments and Follow up services are for the purpose of assuring appropriate usage of the Certification mark in accordance with the agreement. They are not for the purpose of production quality control and do not relieve the Client of their obligation in this respect.
